By the Chinese Government Against Gen. Otis' Order of Exclusion.

### PRESIDENT'S ATTENTION

Promptly Called to the Matter Owing to Its International Aspect-Waiting For a Report From Admiral Watson on Bombarding of Fort In

Washington, Sept. 19 .- The Imperial Ohinese government has lodged with the state department an emphatic protest against the military orders of General Osts excluding Chinese from the Philippines. Neither the state department nor she Ohinese legation will give any information concerning the protest, but from entirely reliable quarters it is learned that it insists that General Otis' action is contrary to international law, in violation of existing treaties and in complete disregard of the friendly relations which have been so long maintained between the two countries.

Minister Wu called at the state department last Friday, and it is believed he submitted the protest in person at

The matter was promptly brought to the attention of the president, as the protest was of such a character as to questions involved.

It is said that China points out that she has welcomed the recent advent of cents or over is made. the United States into the affairs of the far east, and has hoped that this step would prove a further bond and would extend the relations between the two countries, particularly is their neigh-boring possessions. Furthermore, it is understood that among the specific points of protest submitted by the Chinese government is one to the effect that such an order is a departure from the announced purpose of the president of the United States to maintain the present status of affairs in the Philippines until congress had determined a permanent condition.

The military phases of the question have been referred to Secretary Root. Owing to his familiarity with international law he probably will consider the subject broadly, both in its international as well as its military aspects. General Otis' order was issued some time ago, without direction from Washington, and apparently as a military necessity, although the Chinese protest urges that there is no such military necessity, but, e contrary, that the Ohinese have rendered valuable military assistance.

It is understood that the Chinese government regards the outcome of this protest with much apprehension. It is dor Cambon would be succeeded here pointed out that the Chinese have been by Camille Barrere, and a recent letter long established in the Philippines, and from M. The Chinese protest is said to be couched in most dignified and courteous terms, but to be so pointed that no coubt is left as to the deep umbrage the Chinese government feels over this order of General Otis'.

DEWEY RECEPTION

Arrangements About Completed For Admiral's Greeting at Washington. Washington, Sept. 10.—Arrangements for the national reception to Admiral Dewey in this city, Oct. 8 and 8, are eing rapidly completed. General Nelson A. Miles, the marshal of the parade, has announced the selection of Adjutant General Corbin as his chief of staff, and

DROPPED DEAD.

The man with heart trouble never knows when his time may come. When he leaves home for work he may never return alive. He may drop dead on the

street, in his pulpit, in his office, over his work bench. Heart disease is no respecter of persons. The Christian minister is liable the same as anyone else.

Rev. C. L. Mundell writes:

"I suffered from that dreadful tired feeling and weakness, and in 1803 I lost my health altogether. I went to one of the best doctors in the state and he said I had heart, stomach, liver and kidney trouble. His treatment did me no good. I tried different kinds of patent medicines but got worse all the time. If I walked up hill or a little fast it seemed as though my heart would jump out. I had almost given up all hope, and my money was all gone; was scarcely able to make a living. Finally I wrote Dr. Pierce and fellowing his advice I purchased at my nearest drug store a bottle of Dr. Pierce's Golden Medical Discovery and a bottle of his 'Pleasant Pellets.' This was a year ago and now I am happy to say that I am in the enjoyment of perfect health. I am so glad of my health that I cannot say too much. I first return my sincere thanks to Almighty God and then to Dr. Pierce.

"I would not do without your 'Pellets' for one hundred dollars (\$too.oo) per month.

"Do not think I am exaggerating. My statement is true and if any doubt it they can write to Pinegrove, Ohio, where I live, and if any should think this an assumed name and that such a man as C. L. Mundell does not exist, they may look in the minutes of Providence Association, or in the Baptist Year Book, in the list of Elders, and they will find my name."

Constipation and biliousness are radical Rev. C. L. Mundell writes:

Major John A. Johnson, assistant adjutant general, chief aide-de-camp. The parade will consist of about 20,000 men. representing military and naval, civic, patrietic, labor and secret organizations.

The escort that will accompany Admiral Dewey to the capitol at noon on Oct. 8, where he will be presented by Secretary Long with the sword voted to him by congress, will be mounted and consist of the visiting governors of the states and their staffs, representatives of the army, the navy and the executive branches of the government and prominent citizens of the capital.

HASN'T REPORTED

Government Waiting to Hear From Admiral Watson.

Washington, Sept. 19.—Admiral Watson has not yet reported to the navy department upon the reported bombardment of the fort in Subig bay by the Charleston. General Otis was recently informed by cable that he could have the fullest co-operation of the navy in any movement, and it is thought at the navy department that in execution of this promise Admiral Watson is initiating the new campaign. Subig bay is the site of a projected

naval station. The Spaniards discovered that it afforded advantages for such a purpose over Manila bay, and especially over Cavite. They spent nearly \$1,000,000 upon the place before the war, and it was one of the plans of Admirat Montejo, the Spanish naval commander, to make his stand against Dewey at Subig instead of at Cavite.

By the Chinese Government Against Gen. Otis' Order of Exclusion.

### PRESIDENT'S ATTENTION

Promptly Called to the Matter Owing to Its International Aspect-Waiting Por a Report From Admiral Watson on Bombarding of Fort In Subig Bay.

Washington, Sept. 19 .- The Imperial Ohinese government has lodged with the state department an emphatic protest against the military orders of General Osts excluding Chinese from the Philippines. Neither the state department nor she Ohinese legation will give any information concerning the protest, but from entirely reliable quarters it is learned that it insists that General Otis' action is contrary to international law, in violation of existing treaties and in complete disregard of the friendly relations which have been so long maintained between the two countries.

Minister Wu called at the state department last Friday, and it is believed he submitted the protest in person at

The matter was promptly brought to the attention of the president, as the protest was of such a character as to give the subject an international aspect in this country and any foreign country considerably beyond the purely military questions involved.

It is said that China points out that she has welcomed the recent advent of cents or over is made. the United States into the affairs of the far east, and has boped that this step would prove a further bond and would extend the relations between the two countries, particularly in their no thboring possessions. Furthermore, it is understood that among the specific points of protest submitted by the Chinese government is one to the effect that such an order is a departure from the announced purpose of the president of the United States to maintain the present status of affairs in the Philippines until congress had determined a permanent condition.

The military phases of the question have been referred to Secretary Root. Owing to his familiarity with international law he probably will consider the subject broadly, both in its international as well as its military aspects. General Otis' order was issued some time ago, without direction from Washington, and apparently as a military necessity, although the Chinese protest urges that there is no such mili necessity, but, on the contrary, that the Chinese have rendered valuable military assistance,

It is understood that the Chinese government regards the outcome of this protest with much apprehension. It is dor Cambon would be succeeded here pointed out that the Chinese have been by Camille Barrere, and a recent letter long established in the Philippines, and from M. Cambon made no reference to per ton. that a considerable branch of the industry of the islands is conducted by them ferred to his return to Washington. and that this complete termination of a long established communication between China and the Philippines injures these people both personally and materfally.

The Chinese protest is said to be conched in most dignified and courteous terms, but to be so pointed that no coubt is left as to the deep umbrage the Chinese government feels over this order of General Otis'.

DROPPED DEAD.

The man with heart trouble never knows when his time may come. When he leaves home for work he may never return alive. He may drop dead on the

street, in his pulpit, in his office, over his work bench. Heart disease is no respecter of persons. The Christian minister is liable the same as anyone else. Rev. C. L. Mundell writes:

Rev. C. L. Mundell writes:

"I suffered from that dreadful tired feeling and weakness, and in 1893 I lost my health altogether. I went to one of the best doctors in the state and he said I had heart, stomach, liver and kidney trouble. His treatment did me no good. I tried different kinds of patent medicines but got worse all the time. If I walked up hill or a little fast it seemed as though my heart would jump out. I had almost given up all hope, and my money was all gone; was scarcely able to make a living. Finally I wrote Dr. Pierce and following his advice I purchased at my nearest drug store a bottle of Dr. Pierce's Golden Medical Discovery and a bottle of his 'Pleasant Pellets.' This was a year ago and now I am happy to say that I am in the enjoyment of perfect health. I am so glad of my health that I cannot say too much. I first return my sincere thanks to Almighty God and then to Dr. Pierce.

"I would not do without your 'Pellets' for one hundred dollars (\$100.00) per month.

"Do not think I am exaggerating. My statement is true and if any doubt it they can write to Pinegrove, Ohio, where I live, and if any should think this an assumed name and that such a man as C. L. Mundell does not exist, they may look in the minutes of Providence Association, or in the Baptist Year Book, in the list of Elders, and they will find my name."

The escort that will accompany Admiral Dewey to the capitol at noon on Oct. 8, where he will be presented by Secretary Long with the sword voted to him by congress, will be mounted and consist of the visiting governors of the states and their staffs, representatives of the army, the navy and the executive branches of the government and promi-nent citizens of the capital.

### HASN'T REPORTED

Government Waiting to Hear From Admiral Watson.

Washington, Sept. 19 .- Admiral Watson has not yet reported to the navy department upon the reported bombardment of the fort in Subig bay by the Charleston. General Otis was recently informed by cable that he could have the fullest co-operation of the navy in any movement, and it is thought at the navy department that in execution of this promise Admiral Watson is initiating the new campaign.

Subig bay is the site of a projected naval station. The Spaniards discovered that it afforded advantages for such a purpose over Manila bay, and especially over Cavite. They spent nearly \$1,000,000 upon the place before the war. and it was one of the plans of Admiral Montejo, the Spanish naval commander, to make his stand against Dewey at Subig fustead of at Cavite.

In the course of an interview here on the eve of his departure, he said if the whole of South America could be brought into a federation like the United States it would be a movement which, instead of being antagonistic to the United States, should be one

Howard has just been returned to the penitentiary, from which he escaped Sept. 12, 1894. He was captured at Horton, Mich., where he was pastor of the leading congregation of that village.

The pastor of the now shepherdless flocks in Illinois and Michigan was taken into the anteroom, where he was made to bend over a bench while a hickory paddle in the hands of a stout guard was laid on his anatomy in a manner not-calculated to inspire pulpit oratory. Howard lost all the good time he had gained, about 400 days, and was taken to the idlehouse to await assignment to one of the contracts. He will be given one of the hardest tasks in the prison.

Action Taken by the Central Supply

Milwaukee, Sept. 19.-The National Association of Master Plumbers at their meeting in New Orleans adopted resolutions to the effect that in future they would purchase their supplies from those who sell only to members of the National Association of Master Plumbers. This effort to prevent nonmembers from getting supplies is likely to prove futile, as the Central Supply association, which controls the territory of the central west has adopted a resolution, which had previously been concurred in by the Jobbers' and Manufacturers' association, to the effect that the members of the Central Supply association will not become parties to a plan of trade suppression; that they recognize the right of an individual or firm with an established place of business and representing the industry of plumbing to secure material to do business where it best suits their purpose.

Fielden Lett was born in Owen county, Ky., September 25th, 1817. His mother died when he was six years old and his father moved to Indiana in 1827 and settled in the wilderness \$5 00 which is now Marion township, Jennings county. Educational advan tages were such that he received very little education barely learning to read. His father taught him to be strictly honest from his infancy and encouraged and taught him to economize in his transactions while a mere lad, and promised him if he would remain at home until he was 21 years old he would give him a piece of land. He remained at home until March 1837 when his father died and left to him 40 acresof land; by strict economy Madison & Indianapolis railroad he succeeded in purchasing 80 acres more land.
